

Commercial comparative rating made easy

Save time

Enter data once in one spot. No need to visit multiple carrier websites for quotes.

Less work

Skip all the retyping the same data into carrier systems. You'll boost accuracy and reduce the risk of errors.

Better service

Offer quotes from multiple carriers so your customers get the best option. Or let them quote from your website.

Smart features for your agency

Agency management integration

Export customer data into IBQ for remarketing. Or export from IBQ to your agency management system. No extra charge. Works with Vertafore, Hawksoft and Applied.

Nationwide class codes built in for faster quoting

No need to look up class codes for every company. Our innovative lookup function makes it easy to get the right class for every quote.

BOP, Workers Comp & MonoGL

Quote the most popular commercial lines from one spot—quickly and easily.

Offer Nationwide commercial quotes from your website

Let your customers get quotes whenever they want. They get a real-time quote. You get a text or email with the details. Everyone is happy. Social distancing at its best. Insurtech for the independent agent.
